Contents

An example

First we will find out which software packages/systems we use.

| var1 | var2 | var3 | var4 | ID | |:——:|:——:|:————-:|:——:|:—-:| | Python | Java | Javascript | | 1 | | SAS | SPSS | Excel | R | 2 |

So which software is the most popular?

Figure 1: plot of chunk unnamed-chunk-3

This report was generated with R (3.0.1) and pander (0.3.7) on x86_64-apple-darwin10.8.0 platform.
